

# **Rules for Using the Community Farm**

To ensure smooth management and operation of the community farm, I will comply with Article 12 of the Community Farm Management Regulations and strictly adhere to the following rules. I understand that if these rules are violated, I may lose the privilege of using the farm.

Furthermore, I agree to the city providing the management committee with a roster that includes plot numbers and names, as well as verifying the items listed in the "Household Member List" section of the submitted Community Farm Use Application Form against the Basic Resident Register.

1. Do not sublease the farm.
2. Do not leave the farm uncultivated for more than two months.
3. Do not use slaked lime.
4. Utilize the farm with a 15 cm setback from all four boundaries of the plot.
5. Bring weeds, trash, etc., back with you without burying them.
6. When growing tall crops, ensure their height does not affect sunlight for neighboring plots.
7. Avoid practicing natural farming methods that allow weeds to grow and insects to breed.
8. Do not wash shoes, vegetables, etc., using the farm's water supply.
9. Do not visit the farm by car.
10. Do not smoke within the farm premises.
