Small Volume Commercial Waste Disposal Guide

As a business owner, it is your responsibility to ensure that all waste that your company produces (commercial trash) is handled, collected, and disposed in accordance with the regulation provisions of the “Waste Management and Public Cleansing Law, Article 3”

In Tachikawa City, business owners (small volume commercial waste businesses) that generate less than 10 kilograms per day can dispose trash using designated bags for commercial waste.

How to dispose commercial waste

Volume of commercial waste per day:

Use designated commercial waste bags

- ① Purchase designated bags for business-related commercial waste from the contractor in charge of each areas. (ref. next section)
- ② Dispose the commercial waste bags at the designated location.

- Ask your waste collector who is in charge and find out where the designated disposal site is located.
- For details, please refer to page 2.

Note: Using designated bags for households are not allowed.

Waste Disposal Policy

- You may not discard commercial waste as household waste.
- Seal the bag by tying the open side of the bag when you take out the garbage.
- We request your cooperation to properly sort waste by classification.
- Those who break the rules will be subject to bag inspection and may be instructed appropriate waste management practices.
- If trash does not fit into the designated bag, please ask a waste contractor in charge.
- If more than 30 bags are needed per month, please switch to an individual contract with a waste contractor.

Please cooperate in recycling resources.

The city of Tachikawa promotes recycling resources such as paper supplies that are discarded from offices. As to collections regarding paper material, please ask the person in charge of commercial trash bags at the recycle collection company. You can also drop off the resources directly at the offices below. For further details, please contact each vendor.
